

# The Malcolm McCarthy Document Collection

## Index of Personal Names

This is the alphabetical index of surnames in all the pre 1911 documents that have been transcribed so far. NOT ALL are on this website yet but those that are link from the relevant Parish page.

There are documents dated after 1911 which have been indexed but for privacy reasons these names are not displayed on line. These include the St Merryn School Register 1900-1948 which has details of many Greater London evacuees. Contact Malcolm if you wish to know whether your ancestors are in these documents or if you want any further information regarding any document. He will provide you with any transcript you request.
